*"The Chamber of Mines of Eastern British Columbia is a non-profit organization providing authentic, reliable information to the general public and the mining industry. Our members include everyone from individual prospectors to large mining and engineering companies.*

*We advocate for the mining industry, especially for prospectors and explorationists, as well as serving as an information and resource library with an extensive collection of geological information, maps, as well as rock and mineral specimens. We host elementary to high school classes as well as providing prospecting and other courses. Our graduates have had great success and are responsible for bringing millions of dollars worth of investments to the Kootenay-Boundary region."*
